Typography

Our typography is more than words on a page—we use it to bring a big idea to life.

Meet Cisco Sans
Using color in text

Go to Brand Exchange to download and install the CiscoSans Font

Meet Cisco Sans

CiscoSans is our typeface, and we have a weight for every occasion. We've suggested type sizes and relationships to help you keep things consistent. You may need to adjust depending on your format, but the visual hierarchy should stay the same.

Section title	TT Regular 12pt
H1	**TT Medium 40pt**
H2	**TT Medium 24pt and above**
H3	**TT Bold 20pt and under**
Subtitle 1	TT Regular 16pt
H4	**TT Bold 16pt and under**
Body copy	TT Regular 16pt is the default
Hyperlink	TT Regular, underlined
Labels 1	TT Regular 10-16 pt
Labels 2	**Bold <10 pt**

Using color in text

Colored text is allowed — but only in the right places. Here's some quick tips on what that means:
